MesO

PDRN
Glutathione
Vitamin C

PDRN

5 vials X 3 ml / 0.10 fl.oz

Medisco Meso PDRN contains Sodium DNA, which quickly stimulates collagen synthesis and skin regeneration, promoting skin recovery and health.

Additionally, Sodium Hyaluronate provides moisture, hydration, wrinkle prevention, and helps alleviate skin dryness.

Glutathione

5 vials X 4 ml / 0.13 fl.oz

Medisco Meso Glutathione contains Glutathione, also known as the "Master antioxidant," which prevents cellular damage caused by free radicals but also aids in the recovery of damaged DNA. This contributes to skin improvement and anti-aging. Additionally, it helps inhibit melanin synthesis, assisting in skin brightening.

Vitamin C

5 vials X 4 ml / 0.13 fl.oz

Medisco Meso Vitamin C contains pure Ascorbic Acid, providing powerful antioxidant, and anti-inflammatory effects. It helps neutralize UVA/UVB rays, boosts immune resilience, promotes collagen synthesis, contributes to skin whitening, and regulates pH. It is helpful not only for skin health but also for beauty care.

Product Specs

Name	Meso PDRN	Meso Glutathione	Meso Vitamin C
Features	Anti-aging, Moisturizing	Antioxidant, Brightening	Prevents photoaging, Brightening
Main Ingredient	Sodium DNA (PDRN), Sodium Hyaluronate (HA)	Glutathione	Ascorbic Acid
Usage Methods	Injectable skin booster MTS Technique	Injectable skin booster MTS Technique	Injectable skin booster MTS Technique
Package	3ml * 5vial / box	4ml * 5vial / box	4ml * 5vial / box

How to use

1. Injectable skin booster

Inject 0.05 - 0.1 cc per point, with gaps of 0.3 - 0.5 cm, at a depth of 0.2 - 0.6 mm. Recommended treatment frequency is 2 sessions consecutively every 7 to 10 days, followed by periodic sessions at a frequency of 1 session every 2 weeks.

2. MTS (Microneedling Therapy System)

Apply the product evenly and perform the procedure using the Microneedling Therapy System (MTS) machine. Start from the jaw and move towards the forehead (opposite direction of the muscles) during the treatment. The recommended frequency is once every 3 to 4 days, but it may vary depending on the length of the treatment needle:

Using **0.25mm** needles:
Once every
3 to 4 days

Using **0.50mm** needles:
Once every
1 to 2 weeks

Using **1.00mm** needles:
Once every
3 to 4 weeks

*Do not mix the Medisco Meso line of products.
Use each product separately with 1-2 week intervals of one another.
